Department of Master of Computer Applications

20MCA 36 - Minor Project - Phase II Review

e-Resources Website for Rvce Using SOA

Under the Guidance

Mohan Pujari (1RV20MC052) Ashish Bisht (1RV20MC012) Dr.Divya T L

Assistant Professor RV College of Engineering, Bangalore,560059

Agenda

- Incorporation of Suggestions of previous review
- Objectives
- Functional Requirements (Modules description)
- Non-functional Requirements (Relevant to the project)
- Architectural Design
- Modules identified
- System Design
- Implementation

Objectives

- Collecting the Resources from main library
- Creation of web application using SOA Pattern
- Performing CRUD operation on the resources through the web application.

Functional Requirements

• Module Specification

Frontend Module

- Input Interface for downloading resources
- Process Fetching the file from Database to the download module
- Output Displaying the downloaded file to the Student.

Functional Requirements

• Module Specification

Backend Module

- Input Admin providing resources.
- Process Uploading the resources on the database.
- Output Displaying the resources on the user interface.

RV College of Engineering Non Functional Requirements

Availability:

Resources will be 24/7 available on the website

Security:

Only valid user will be having access to login and access the resources.

Maintainability:

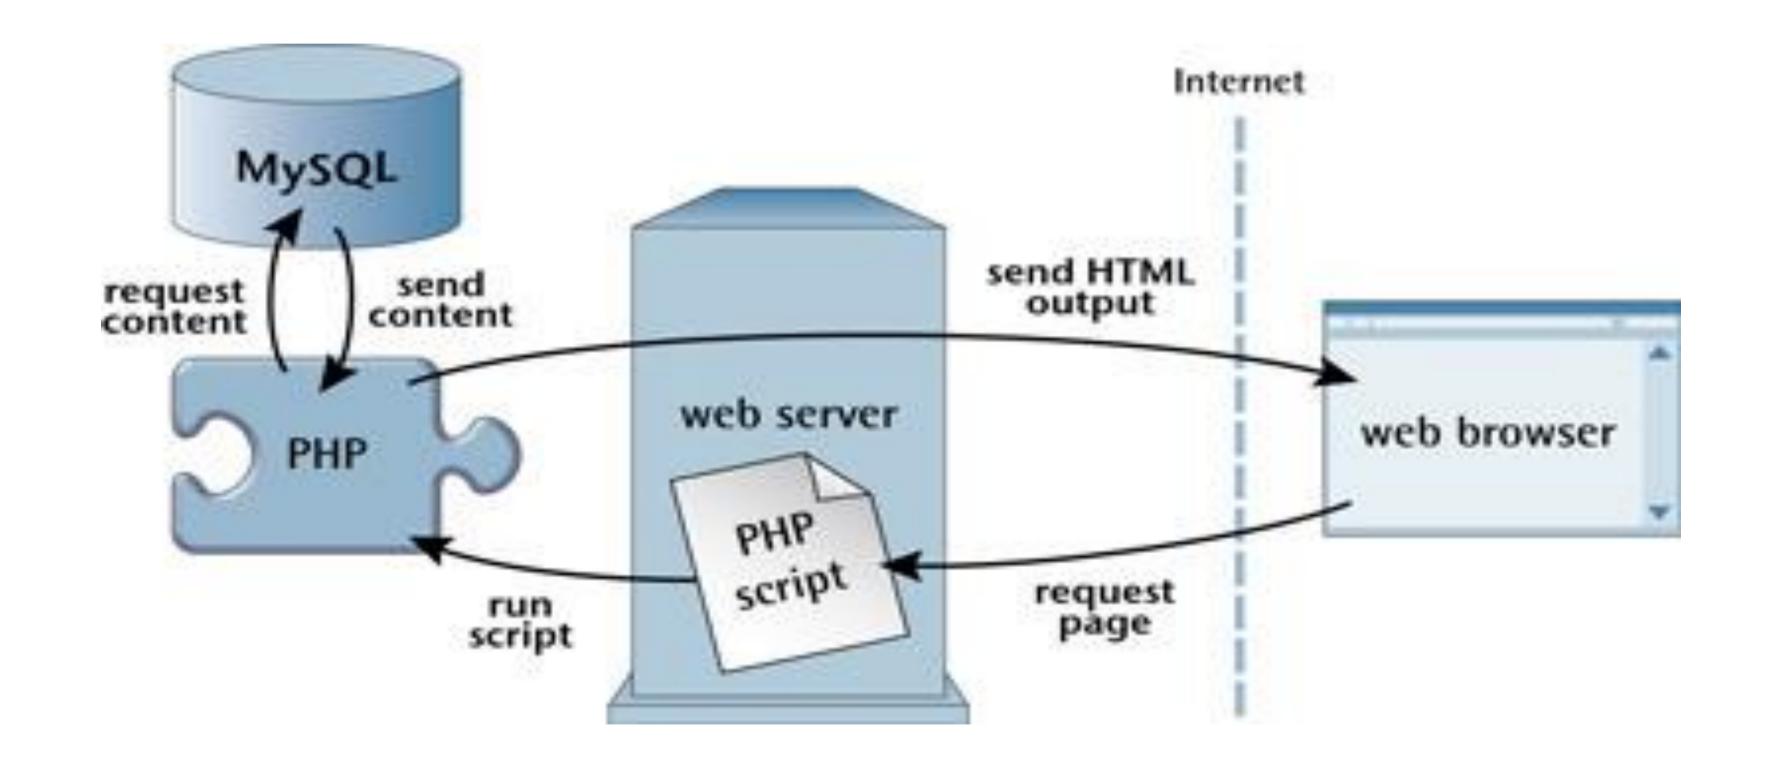

Its easy to maintain the resources.

RV College of Engineering Non Functional Requirements

Safety:

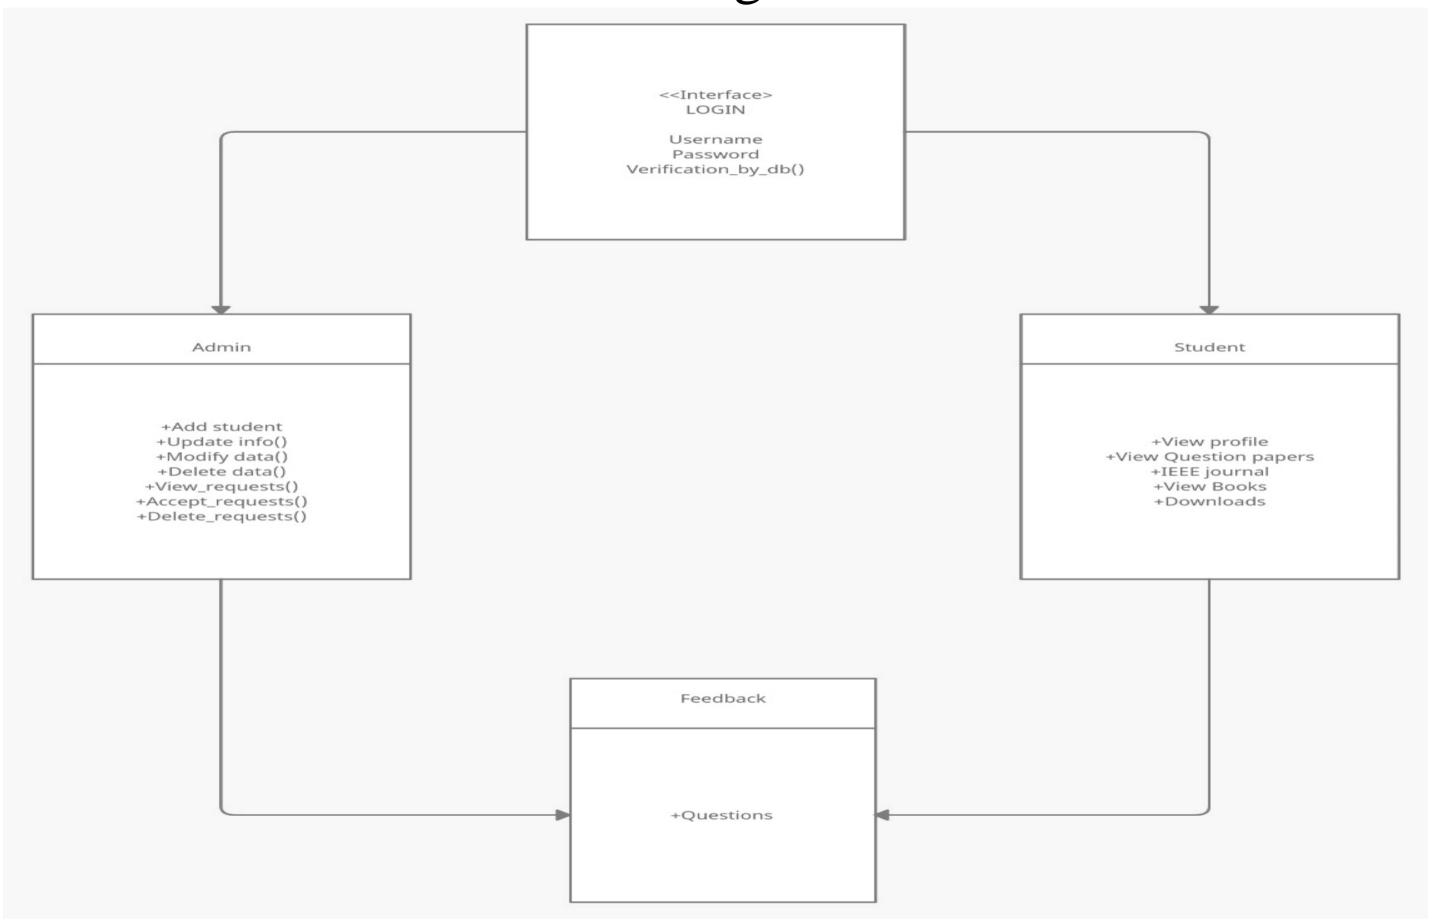

Students authentication will not be shared to others.

Architectural Design

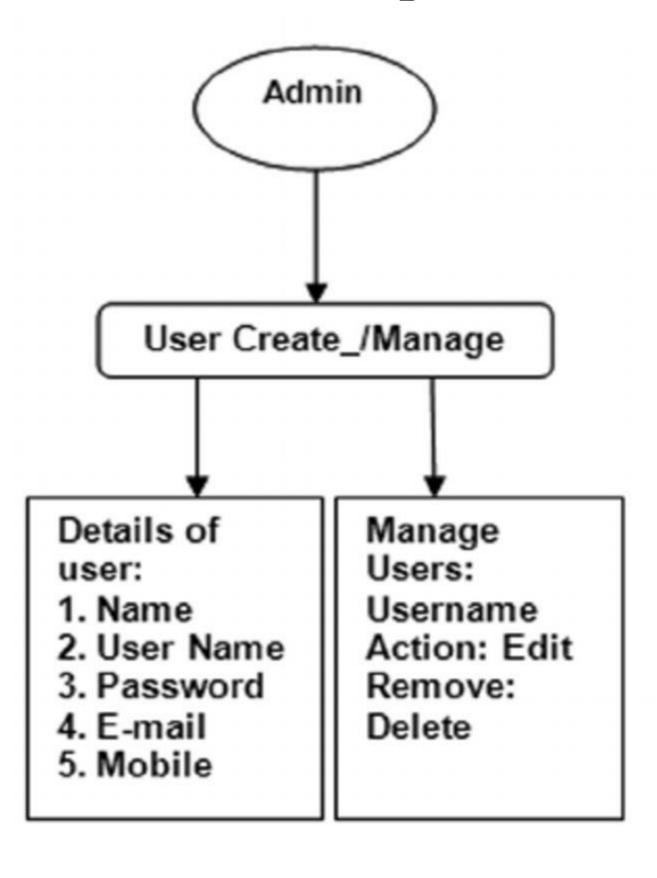

System Design

Functional Modeling

Data flow diagram

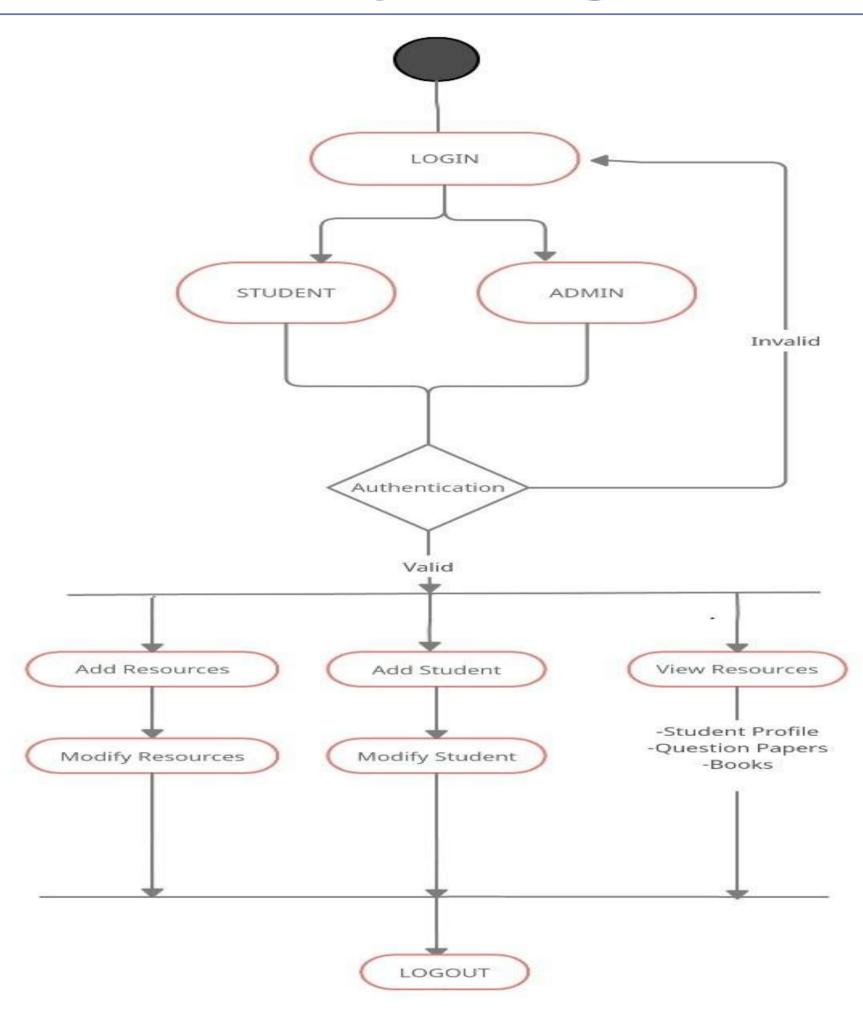

System Design

Sequence diagram

Activity diagram

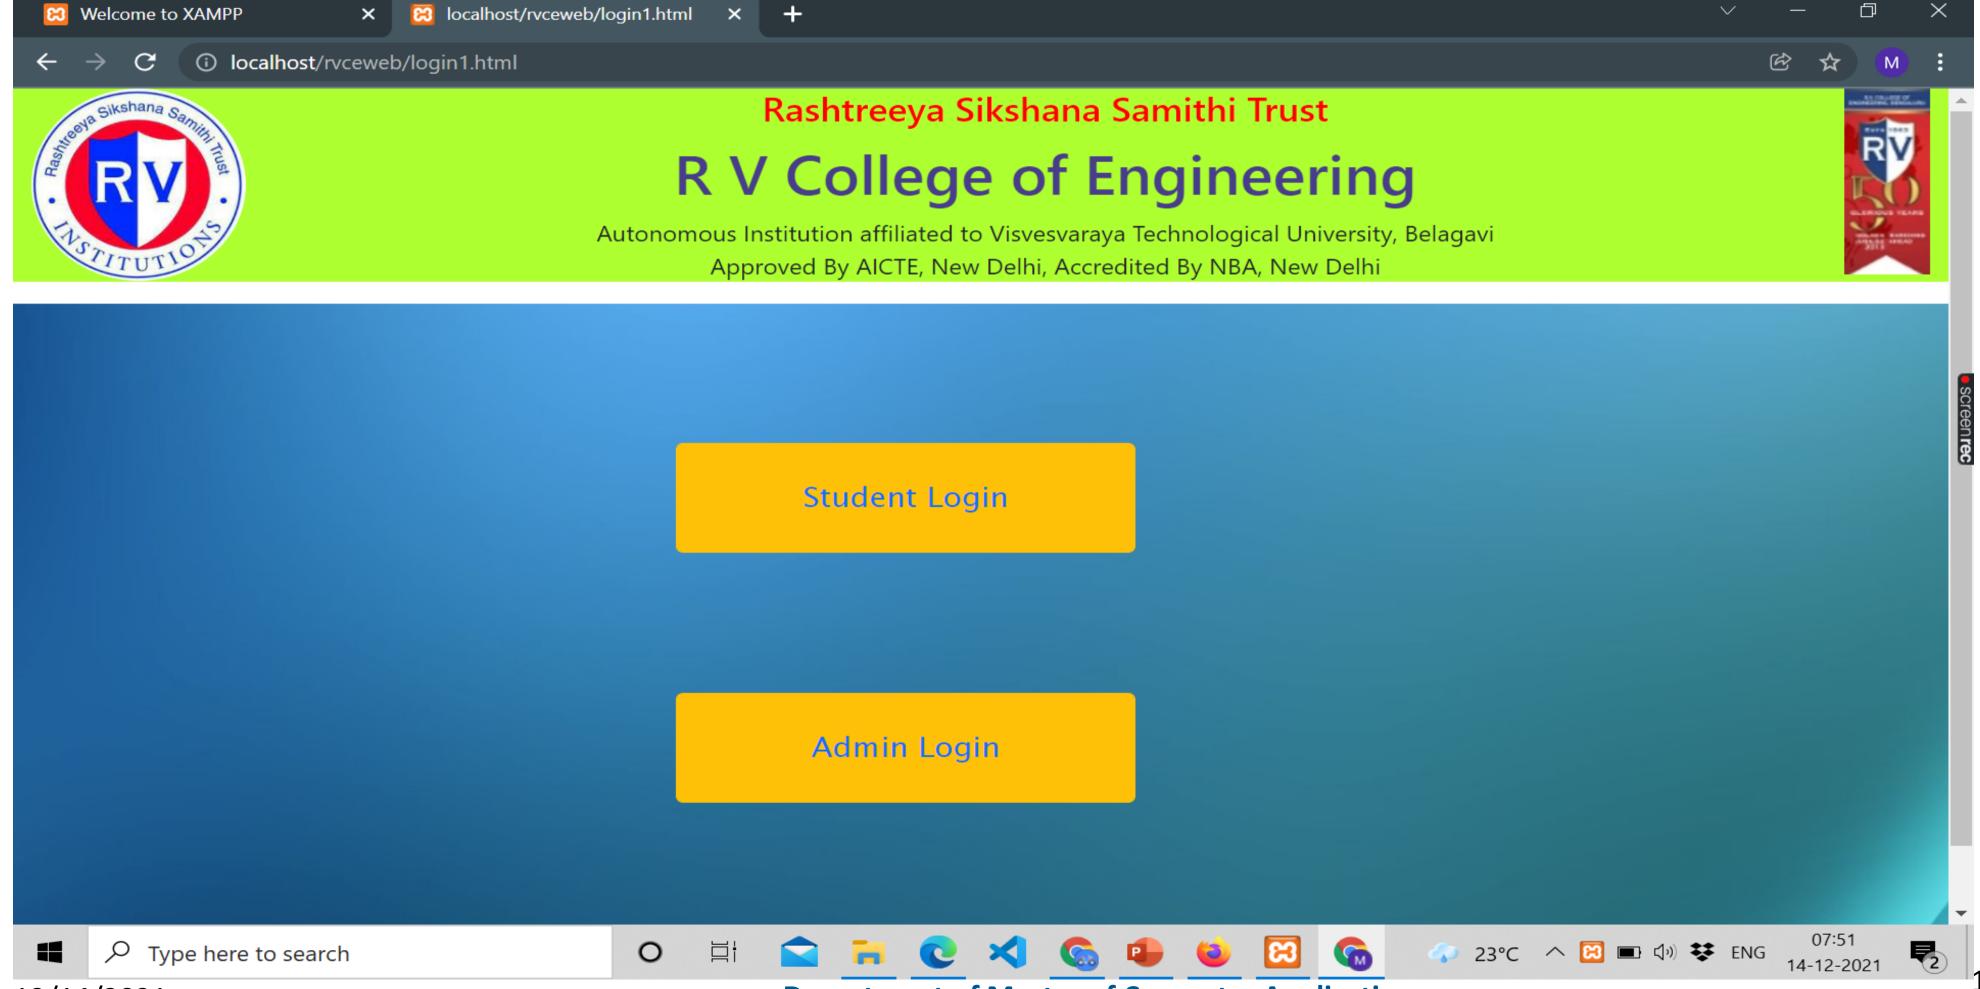

Implementation

- Resources has been collected.
- A Graphical User Interface has been created for user.
- Database has been connected to user interface.

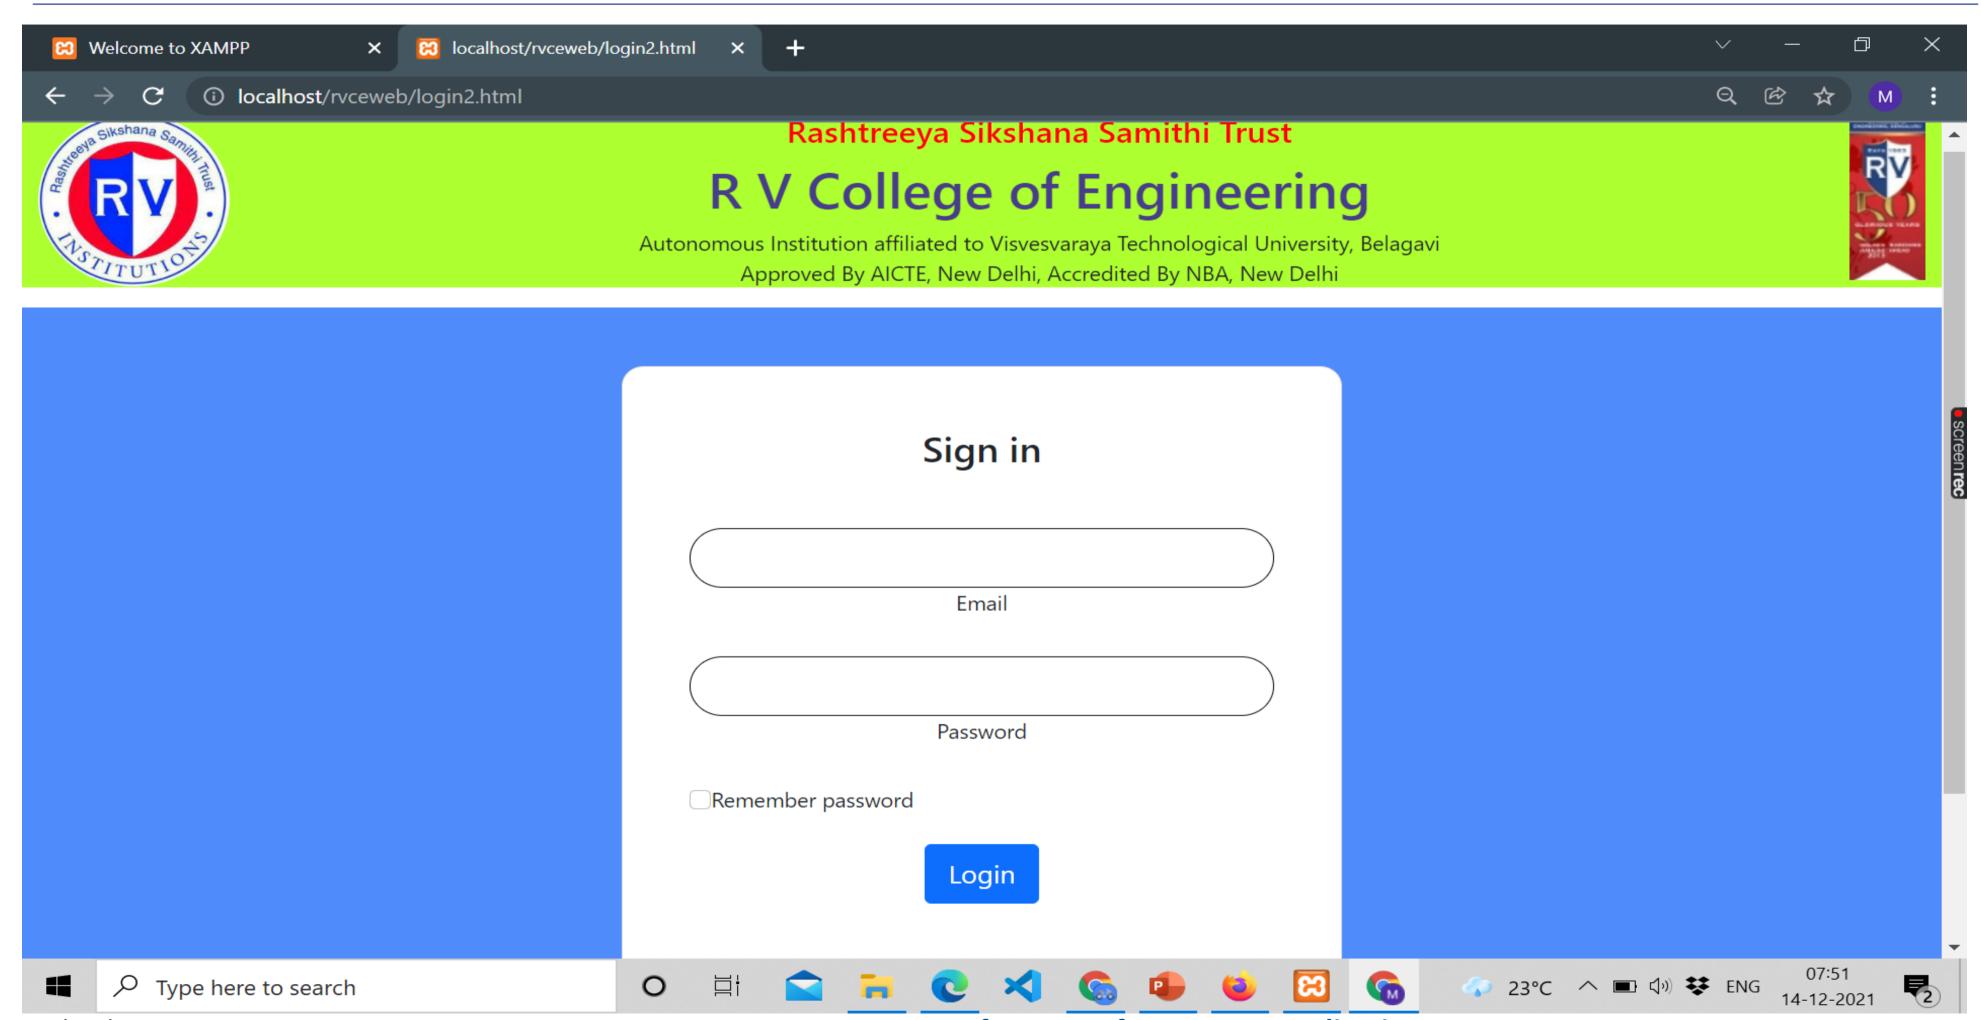

Implementation

Implementation
